

PRODUCT INFORMATION

Clone ID	1A4
Target	GLP1R
Synonyms	GLP-1;GLP-1-R;GLP-1R
Host Species	Rabbit
Description	Anti-GLP1R antibody(1A4), Rabbit mAb
Delivery	In Stock
Uniprot ID	P43220
IgG type	Rabbit IgG
Clonality	Monoclonal
Reactivity	Human
Applications	Flow Cyt
Recommended Dilutions	Flow Cyt 1/100
Purification	Purified from cell culture supernatant by affinity chromatography
Formulation & Reconstitution	Lyophilized from sterile PBS, pH 7.4. Normally 5 % - 8% trehalose is added as protectants before lyophilization. Please see Certificate of Analysis for specific instructions of reconstitution.
Storage & Shipping	Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store at -80°C (Avoid repeated freezing and thawing).
Background	This gene encodes a 7-transmembrane protein that functions as a receptor for glucagon-like peptide 1 (GLP-1) hormone, which stimulates glucose-induced insulin secretion. This receptor, which functions at the cell surface, becomes internalized in response to GLP-1 and GLP-1 analogs, and it plays an important role in the signaling cascades leading to insulin secretion. It also displays neuroprotective effects in animal models. Polymorphisms in this gene are associated with diabetes. The protein is an important drug target for the treatment of type 2 diabetes and stroke. Alternative splicing of this gene results in multiple transcript variants. [provided by RefSeq, Apr 2016]
Usage	Research use only
Conjugate	Unconjugated

Figure 1. Flow cytometry analysis with 2 μ g/mL Anti-GLP1R (1A4) mAb on HEK293 cells transfected with human GLP1R (Blue histogram) or HEK293 transfected with irrelevant protein (Red histogram).
