

PRODUCT INFORMATION

Clone ID 11B2 **CD19 Target**

Synonyms CD19;B4;CVID3;MGC12802

Host Species

Biotinylated Anti-CD19 antibody(11B2), IgG1 Description

Chimeric mAb

Delivery 2-3 weeks **Uniprot ID** P15391

Rabbit/Human Fc chimeric IgG1 IgG type

Clonality Monoclonal Reactivity Human WB **Applications**

Recommended

Background

DIMA Disclaimer

WB 1:1000 **Dilutions**

Purified from cell culture supernatant by affinity **Purification**

chromatography

Lyophilized from sterile PBS, pH 7.4. Normally 5 % Formulation & - 8% trehalose is added as protectants before lyophilization. Please see Certificate of Analysis Reconstitution

for specific instructions of reconstitution. Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store

Storage & Shipping at -80°C (Avoid repeated freezing and thawing). Lyophilized proteins are shipped at ambient

temperature.

Lymphocytes proliferate and differentiate in response to various concentrations of different antigens. The ability of the B cell to respond in a specific, yet sensitive manner to the various antigens is achieved with the use of low-affinity antigen receptors. This gene encodes a cell

surface molecule which assembles with the antigen receptor of B lymphocytes in order to decrease the threshold for antigen receptor-

dependent stimulation.

Usage Research use only

Conjugate Biotinylated

> All DIMA recombinant antibodies are genuinely generated by DIMA Biotech. They are all under patent application. Any protein sequencing or reverse engineering attempt is prohibited. We are

actively scrutinizing all patent application to ensure no IP infringement.
