Cat. No. DMC100439B

## **PRODUCT INFORMATION**

Clone ID **DMC439** CD62L **Target** 

CD62L; LAM1; LECAM1; LEU8; LNHR; LSEL; **Synonyms** 

LYAM1; PLNHR; TQ1

**Host Species** 

Biotinylated Anti-CD62L antibody(DMC439); IgG1 **Description** 

Chimeric mAb

Delivery 2-3 weeks P14151 **Uniprot ID** 

IgG type Rabbit/Human Fc chimeric IgG1

Clonality Monoclonal Reactivity Human **Applications** Flow Cyt

Recommended

Storage & Shipping

**Background** 

**DIMA Disclaimer** 

Flow Cyt 1:100 **Dilutions** 

Purified from cell culture supernatant by affinity **Purification** 

chromatography

Lyophilized from sterile PBS, pH 7.4. Normally 5 % - 8% trehalose is added as protectants before lyophilization. Please see Certificate of Analysis Formulation & Reconstitution

for specific instructions of reconstitution. Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not

intended for use within a month, aliquot and store at -80°C (Avoid repeated freezing and thawing). Lyophilized proteins are shipped at ambient

temperature.

This gene encodes a cell surface adhesion

molecule that belongs to a family of

adhesion:homing receptors. The encoded protein contains a C-type lectin-like domain; a calciumbinding epidermal growth factor-like domain; and two short complement-like repeats. The gene product is required for binding and subsequent rolling of leucocytes on endothelial cells;

facilitating their migration into secondary lymphoid organs and inflammation sites. Singlenucleotide polymorphisms in this gene have been associated with various diseases including immunoglobulin A nephropathy. Alternatively spliced transcript variants have been found for

this gene.

**Usage** Research use only

Conjugate Biotinylated

> All DIMA recombinant antibodies are genuinely generated by DIMA Biotech. They are all under patent application. Any protein sequencing or reverse engineering attempt is prohibited. We are
