Cat. No. DME100165B

## **PRODUCT INFORMATION**

Clone ID DM165 **Target** CLEC12A

**Synonyms** CLEC12A;MICL;CLL-1;CLL1;DCAL2;DCAL-2;CD371

**Host Species** Rabbit

Description Anti-CLEC12A antibody(DM165); Rabbit mAb

**Delivery** 2-3 weeks **Uniprot ID** Q5QGZ9 IgG type Rabbit IgG Clonality Monoclonal Reactivity Human

**Applications** ELISA; Flow Cyt

Recommended

**Background** 

ELISA 1:5000-10000; Flow Cyt 1:100 **Dilutions** 

Purified from cell culture supernatant by affinity Purification

chromatography

Lyophilized from sterile PBS, pH 7.4. Normally 5 % Formulation & - 8% trehalose is added as protectants before Reconstitution

lyophilization. Please see Certificate of Analysis for specific instructions of reconstitution. Store at -20°C to -80°C for 12 months in

lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store

Storage & Shipping at -80°C (Avoid repeated freezing and thawing). Lyophilized proteins are shipped at ambient

temperature.

This gene encodes a member of the C-type lectin:C-type lectin-like domain (CTL:CTLD) superfamily. Members of this family share a common protein fold and have diverse functions;

such as cell adhesion; cell-cell signaling; glycoprotein turnover; and roles in inflammation and immune response. The protein encoded by this gene is a negative regulator of granulocyte and monocyte function. Several alternatively

spliced transcript variants of this gene have been described; but the full-length nature of some of these variants has not been determined. This gene is closely linked to other CTL:CTLD

> Email: info@dimabio.com Website: www.dimabio.com

superfamily members in the natural killer gene complex region on chromosome 12p13.

Usage Research use only
