

PRODUCT INFORMATION

CSF1R **Target**

FMS; CSFR; FIM2; GPSC; HDLS; C-FMS; CD115; **Synonyms**

HDLS1; CSF-1R; BANDDOS; M-CSF-R

Recombinant human CSF1R(105-202) Protein with **Description**

C-terminal human Fc tag

Delivery In Stock P07333 **Uniprot ID Expression Host HFK293**

Tag C-Human Fc tag

Molecular

Storage & Shipping

Background

CSF1R(Ala105-Pro202) hFc(Glu99-Ala330) Characterization

The protein has a predicted molecular mass of **Molecular Weight** 37.2 kDa after removal of the signal peptide.

The purity of the protein is greater than 85% as determined by SDS-PAGE and Coomassie blue **Purity**

staining.

Lyophilized from sterile PBS, pH 7.4. Normally 5 % Formulation & - 8% trehalose is added as protectants before lyophilization. Please see Certificate of Analysis Reconstitution

for specific instructions of reconstitution. Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store

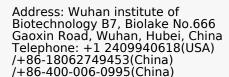

at -80°C (Avoid repeated freezing and thawing). Lyophilized proteins are shipped at ambient

temperature.

The protein encoded by this gene is the receptor for colony stimulating factor 1, a cytokine which controls the production, differentiation, and function of macrophages. This receptor mediates most if not all of the biological effects of this cytokine. Ligand binding activates the receptor kinase through a process of oligomerization and transphosphorylation. The encoded protein is a tyrosine kinase transmembrane receptor and member of the CSF1/PDGF receptor family of tyrosine-protein kinases. Mutations in this gene

have been associated with a predisposition to myeloid malignancy. The first intron of this gene contains a transcriptionally inactive ribosomal protein L7 processed pseudogene oriented in the opposite direction. Alternative splicing results in multiple transcript variants. Expression of a splice variants from an LTR promoter had been found in Hodgkin lymphoma (HL), HL cell lines and anaplastic large cell lymphoma. [provided by RefSeq, Mar 2017]

Usage Research use only Conjugate Unconjugated
