**Description** 

**Background** 

## **PRODUCT INFORMATION**

IGFBP-1 **Target** 

Insulin-like growth factor-binding protein **Synonyms** 1;IBP-1;IGF-binding protein 1;IGFBP-1;Placental

protein 12;PP12

Recombinant Human Insulin-like Growth Factorbinding Protein 1 is produced by our Mammalian expression system and the target gene encoding Ala26-Asn259 is expressed with a 6His tag at the

C-terminus.

In Stock **Delivery Uniprot ID** P08833 **Expression Host HEK293** Tag C-6×His Tag

Molecular Not available Characterization

**Molecular Weight** 26.1 KDa

Greater than 95% as determined by reducing **Purity** 

SDS-PAGE.

Lyophilized from a 0.2 µm filtered solution of PBS, Formulation & Reconstitution

pH 7.4.

Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store Storage & Shipping at -80°C (Avoid repeated freezing and thawing).

Lyophilized proteins are shipped at ambient

temperature.

Insulin-like growth factor-binding protein 1 (IGFBP1) is encoded by 259 amino acid (aa) with 25 aa residue signal peptide that is processed to generate the 234 aa residue mature protein. IGF-binding proteins prolong the half-life of the IGFs and have been shown to either inhibit or

and have been shown to either inhibit or stimulate the growth promoting effects of the IGFs on cell culture. They alter the interaction of IGFs with their cell surface receptors. Promotes cell migration. Regulation of Insulin-like Growth

Factor (IGF) transport and uptake by Insulin-like Growth Factor Binding Proteins (IGFBPs).

Usage Research use only
