Cat. No. PME101467

PRODUCT INFORMATION

Target ITGAV and ITGB5

CD51; MSK8; VNRA; VTNR and ITB5; Integrin Synonyms

beta-5

Recombinant human ITGAV protein with C-Description terminal 6×His tag and human ITGB5 protein with

C-terminal human Fc tag

Delivery

Uniprot ID P06756 and P18084

HEK293 Expression Host

C-6×His tag and C-Human Fc tag Tag

Molecular ITGAV(Phe31-Val992) 6×His tag and ITGB5(Gly24-

Characterization Asn719) hFc(Glu99-Ala330)

The protein has a predicted molecular mass of **Molecular Weight** 107.1 and 102.7 kDa after removal of the signal

peptide.

The purity of the protein is greater than 85% as **Purity** determined by SDS-PAGE and Coomassie blue

staining.

Lyophilized from sterile PBS, pH 7.4. Normally 5 % - 8% trehalose is added as protectants before Formulation & Reconstitution

lyophilization. Please see Certificate of Analysis for specific instructions of reconstitution.

Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not

intended for use within a month, aliquot and store at -80°C (Avoid repeated freezing and thawing). Storage & Shipping

Lyophilized proteins are shipped at ambient

temperature.

Integrin alpha V beta 5 (ITGAV & ITGB5) is expressed on a wide variety of cell types including keratinocytes, fibroblasts, adhesive monocytes, embryonic stem cells, and select endothelium and epithelium. ITGAV & ITGB5 binds

ligands containing an RGD motif, notably vitronectin. Growth factors that increase PKC activity, such as VEGF or TGF alpha, promote ITGAV & ITGB5-mediated angiogenesis while

alpha V beta 3, which may be expressed in the same cell, responds to FGF-basic and TNF alpha. An inhibitor of both down regulates tumor angiogenesis. During lung inflammation, up regulation of ITGAV & ITGB5 on myofibroblasts or

infiltrating lymphocytes may contribute to fibrosis by freeing TGF beta from latency.

Usage Research use only Conjugate Unconjugated

Background

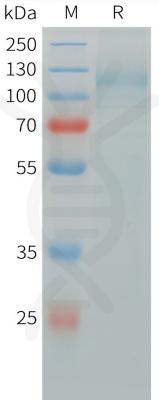

Figure 1. Human ITGAV and ITGB5 Protein, His Tag and hFc Tag on SDS-PAGE under reducing condition.
