

PRODUCT INFORMATION

|                              |   |
|------------------------------|---|
| Target                       | VEGFB   |
| Synonyms                     | VRF; VEGFL  |
| Description                  | Recombinant human VEGFB Protein with C-terminal human Fc tag  |
| Delivery                     | In Stock  |
| Uniprot ID                   | P49765  |
| Expression Host              | HEK293  |
| Tag                          | C-Human Fc tag  |
| Molecular Characterization   | VEGFB(Pro22-Ala207) hFc(Glu99-Ala330)   |
| Molecular Weight             | The protein has a predicted molecular mass of 45.5 kDa after removal of the signal peptide.   |
| Purity                       | The purity of the protein is greater than 95% as determined by SDS-PAGE and Coomassie blue staining.  |
| Formulation & Reconstitution | Lyophilized from sterile PBS, pH 7.4. Normally 5 % - 8% trehalose is added as protectants before lyophilization. Please see Certificate of Analysis for specific instructions of reconstitution.  |
| Storage&Shipping             | Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store at -80°C (Avoid repeated freezing and thawing). Lyophilized proteins are shipped at ambient temperature.   |
| Background                   | This gene encodes a member of the PDGF (platelet-derived growth factor)/VEGF (vascular endothelial growth factor) family. The VEGF family members regulate the formation of blood vessels and are involved in endothelial cell physiology. This member is a ligand for VEGFR-1 (vascular endothelial growth factor receptor 1) and NRP-1 (neuropilin-1). Studies in mice showed that this gene was co-expressed with nuclear-encoded mitochondrial genes and the encoded protein specifically controlled endothelial uptake of fatty acids. Alternatively spliced transcript variants encoding distinct isoforms have been identified. [provided by RefSeq, Sep 2011] |
| Usage                        | Research use only   |
| Conjugate                    | Unconjugated  |
