

PRODUCT INFORMATION

Clone ID **DMC439 Target** CD62L

CD62L; LAM1; LECAM1; LEU8; LNHR; LSEL; **Synonyms**

LYAM1; PLNHR; TQ1

Host Species

PE-conjugated Anti-CD62L antibody(DMC439); IgG1 Chimeric mAb **Description**

Delivery Under Development

Uniprot ID P14151

IgG type Rabbit/Human Fc chimeric IgG1

Clonality Monoclonal Reactivity Human **Applications** Flow Cyt

Recommended

Dilutions

Flow Cyt 1:100

Purified from cell culture supernatant by affinity **Purification**

chromatography

Formulation & Reconstitution

DIMA Disclaimer

Liquid PBS with 0.05% Proclin300, 1% BSA

Storage & Shipping Store at 2°C-8°C for 6 months

This gene encodes a cell surface adhesion

molecule that belongs to a family of

adhesion:homing receptors. The encoded protein contains a C-type lectin-like domain; a calciumbinding epidermal growth factor-like domain; and two short complement-like repeats. The gene product is required for binding and subsequent rolling of leucocytes on endothelial cells; facilitating their migration into secondary

Background

lymphoid organs and inflammation sites. Singlenucleotide polymorphisms in this gene have been associated with various diseases including immunoglobulin A nephropathy. Alternatively spliced transcript variants have been found for

this gene.

Usage Research use only

Conjugate PE-conjugated

All DIMA recombinant antibodies are genuinely generated by DIMA Biotech. They are all under patent application. Any protein sequencing or reverse engineering attempt is prohibited. We are
