

PRODUCT INFORMATION

Clone ID DM208 **Target** CXCR3

CD182; CD183; CKR-L2; CMKAR3; GPR9; IP10-R; **Synonyms**

Mig-R; MigR

Host Species

PE-conjugated Anti-CXCR3 antibody(DM208); **Description**

Rabbit mAb

Delivery Under Development

Uniprot ID P49682 IgG type Rabbit IgG Clonality Monoclonal Reactivity Human **Applications** Flow Cyt

Recommended

Formulation &

Background

Flow Cyt 1:100 **Dilutions**

Purified from cell culture supernatant by affinity **Purification**

chromatography

Liquid PBS with 0.05% Proclin300, 1% BSA Reconstitution

Storage & Shipping Store at 2°C-8°C for 6 months

> with selectivity for three chemokines; termed CXCL9:Mig (monokine induced by interferon-g); CXCL10:IP10 (interferon-g-inducible 10 kDa protein) and CXCL11:I-TAC (interferon-inducible T cell a-chemoattractant). Binding of chemokines to this protein induces cellular responses that are involved in leukocyte traffic; most notably integrin activation; cytoskeletal changes and

This gene encodes a G protein-coupled receptor

chemotactic migration. Alternatively spliced transcript variants encoding different isoforms have been found for this gene. One of the isoforms (CXCR3-B) shows high affinity binding to chemokine; CXCL4:PF4 (PMID:12782716).
