

PRODUCT INFORMATION

Clone ID 17C1 **GFAP Target ALXDRD Synonyms Host Species** Rabbit

PE-conjugated Anti-GFAP(68-377) antibody(17C1), Description

Rabbit mAb

Delivery Under Development

Uniprot ID P14136 Rabbit IgG IgG type Clonality Monoclonal Reactivity Human **Applications** Flow Cyt

Recommended Flow Cyt 1:100 **Dilutions**

Purified from cell culture supernatant by affinity **Purification**

chromatography

Formulation & Liquid PBS with 0.05% Proclin300, 1% BSA Reconstitution

Storage & Shipping Store at 2°C-8°C for 6 months

This gene encodes one of the major intermediate filament proteins of mature astrocytes. It is used as a marker to distinguish astrocytes from other glial cells during development. Mutations in this gene cause Alexander disease, a rare disorder of

astrocytes in the central nervous system.

Alternative splicing results in multiple transcript variants encoding distinct isoforms. [provided by

RefSeq, Oct 2008]

Usage Research use only Conjugate PE-conjugated
