Cat. No. DMC100482P

## **PRODUCT INFORMATION**

Clone ID **DMC482 Target** C5AR2

**Synonyms** C5L2; GPF77; GPR77

**Host Species** Rabbit

PE-conjugated Anti-GPR77 antibody(DMC482); Description

IgG1 Chimeric mAb

**Delivery Under Development** 

**Uniprot ID** Q9P296

Rabbit/Human Fc chimeric IgG1 IgG type

Clonality Monoclonal Reactivity Human **Applications** Flow Cyt

Recommended

Flow Cyt 1:100 **Dilutions** 

Purified from cell culture supernatant by affinity **Purification** 

chromatography

Formulation & Reconstitution

**Usage** 

**DIMA Disclaimer** 

Liquid PBS with 0.05% Proclin300, 1% BSA

Storage & Shipping Store at 2°C-8°C for 6 months

> This gene encodes a G-protein coupled receptor 1 family member involved in the complement system of the innate immune response. Unlike classical G-protein coupled receptors; the encoded protein does not associate with

intracellular G-proteins. It may instead modulate **Background** signal transduction through the beta-arrestin

pathway; and may alternatively act as a decoy receptor. This gene may be involved in coronary artery disease and in the pathogenesis of sepsis. Alternative splicing results in multiple transcript variants. [provided by RefSeq; Nov 2012]
