Cat. No. DMC100389P

PRODUCT INFORMATION

Clone ID **DMC389 VWF Target**

F8VWF; VWD **Synonyms**

Host Species Rabbit

PE-conjugated Anti-VWF antibody(DMC389); IgG1 **Description**

Chimeric mAb

Delivery Under Development

Uniprot ID P04275

Rabbit/Human Fc chimeric IgG1 IgG type

Clonality Monoclonal Reactivity Human **Applications** Flow Cyt

Recommended

Flow Cyt 1:100 **Dilutions**

Purified from cell culture supernatant by affinity **Purification**

chromatography

Formulation & Reconstitution

Background

DIMA Disclaimer

Liquid PBS with 0.05% Proclin300, 1% BSA

Storage & Shipping Store at 2°C-8°C for 6 months

> This gene encodes a glycoprotein involved in hemostasis. The encoded preproprotein is proteolytically processed following assembly into large multimeric complexes. These complexes function in the adhesion of platelets to sites of vascular injury and the transport of various proteins in the blood. Mutations in this gene

result in von Willebrand disease; an inherited bleeding disorder. An unprocessed pseudogene

has been found on chromosome 22.

Usage Research use only PE-conjugated Conjugate

> All DIMA recombinant antibodies are genuinely generated by DIMA Biotech. They are all under patent application. Any protein sequencing or reverse engineering attempt is prohibited. We are

actively scrutinizing all patent application to ensure no IP infringement.
