

DIMA BIOTECH
Recombinant mAbs and proteins

Immediate Testing

5,000+ Prevalidated IgG Molecules Ready to Out-license

5000+ In-stock IgG Sequences

500+ Druggable Targets

No Upfront

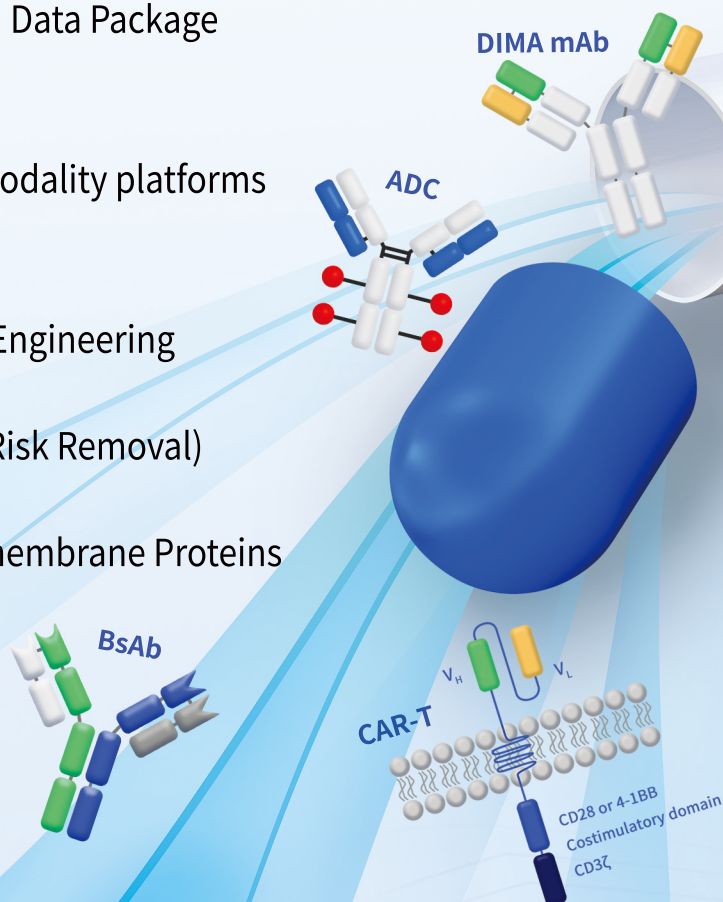

No Risk

No Waiting

- Immediate Testing (Pre-clinical Validation Data Package available)
- Functional evaluation data on different modality platforms (CAR-T, ADC, BsAb, etc.)
- Mammalian Cell Display Based Antibody Engineering Platform for lead Optimization (Humanization, Affinity Maturation, PTM Risk Removal)
- Complete Solutions for Multi-pass Transmembrane Proteins (Nanodisc, VLP, MNP, Exosome, ECD)
